

Are you new to online education? Never fear! The following resources will help you to get the most out of your online classes.

Making the Move to Online Learning

This video is a great first step on what to expect, tools for success, and how to start with the transition to online learning.

Online learning support for Students

This interactive section of The Learning Centre breaks down the different areas where students may feel overwhelmed or would like extra support or tips on managing the new online learning format.

Topics include +Managing Time; +Learning from Course Material; +Communicating Effectively with faculty and students individually and in teams; +Analyzing Assignments; and +Managing Digital information.

Moodle

To get the most out of Moodle, there is a helpful video [here](#).

Additional support for specific tasks with online learning

Quick Help Guide: My instructor has asked me to...

- > [Submit an assignment in Moodle](#)
- > [Post on an online forum](#)
- > [Collaborate on a project with classmates](#)
- > [Join a real-time class session on Big Blue Button](#)
- > [Create a video presentation](#)

Need More?

The Teaching and Learning Centre is hosting online workshops on topics such as preparing for open book exams, readings to help with creating your space at home for online learning, and more! You can also book an online tutor, all in one spot [here](#).
