

ACADEMIC AND CAREER PREPARATION

Hosam Mansor

English Language Studies (ELS)

English Language Studies (ELS) has not only given me the opportunity to continue my university studies, but has improved my time management as a worker and student, extended my knowledge with its interesting topics, and immersed me in Canadian culture. All aspects are helping me to integrate more quickly in the community.

“improved my time management as a worker and student... helping me to integrate more quickly in the community.”
