

For Future Students

The Office of New Student Programs services students interested in attending Kwantlen. Representatives from this area are the first point of contact to provide up-to-date information to students, parents, counsellors and teachers about Kwantlen programs, services, facilities and admission requirements. Staff from this office are responsible for student recruitment activities including visiting secondary schools and attending education fairs nationally and internationally. The office also arranges the mail-out of information such as viewbooks, calendars and brochures to secondary schools.

During the year Kwantlen offers public tours and open houses to showcase the wide range of programs and resources available at our Cloverdale, Langley, Richmond and Surrey campuses. Services are also available to connect individuals to visit or tour a specific discipline area. Arrangements for campus tours are made through the Office of New Student Programs. Call 604.599.3165 or visit www.kwantlen.ca/futurestudents for more information.
