## DESCRIPTION

The Bachelor of Arts, Major in Criminology program provides students with a broad, liberal education in social science, criminal justice, and law. Students learn scientific research methods, legal and philosophical approaches to aid in understanding crime and related social problems, and social responses to crime. The BA degree program builds on the central core of method and theory and affords students opportunities to hone abstract, logical thinking, and critical understanding of the issues, arguments, and debates that shape the discipline's character and aims. Contemporary criminology courses developed especially for this degree expose students to cutting-edge theory and research. This program integrates opportunities to engage in undergraduate research, service learning, and practicum placements that provide students with highly transferable and marketable knowledge and skills.

Students who are interested in applying to graduate school, or who prefer a more extensive research experience, are encouraged to undertake a structured program leading to a Bachelor of Arts (Honours), Major in Criminology

## CAREER OPPORTUNITIES

The Bachelor of Arts, Major in Criminology provides a wide range of opportunities to students. Graduates of criminology programs find employment in every aspect of the criminal justice system, including law, law enforcement, corrections, crime prevention, and public and private justice administration. Many graduates pursue careers within the public and private sectors in occupations where familiarity with justice and the law is valued by employers; examples include customs and border security, regulatory and other public agencies, private companies, and not-for-profit organizations. Labour market predictions for criminal justice and related areas are very favourable, as demographic trends and public safety and security concerns have increased demand for criminal justice professionals. The conceptual, critical, and applied skills that students acquire in this program will be attractive to employers in a wide range of settings.

Criminology programs also offer excellent educational preparation for those who intend to major in law, social work, psychology, sociology, or philosophy. Students who wish to do graduate work in criminology are encouraged to take both CRIM 3104 and CRIM 4410 (both are required for entry into the Honours degree option for the Bachelor of Arts, Major in Criminology).
