# Urban Ecosystems: Bachelor of Horticulture Science Major

Faculty of Science and Horticulture	kwantlen.ca/science
School of Horticulture	kwantlen.ca/hort
Implementation Date	01-Sep-2011
Start Date(s)	September January
Admission Type	Selective entry
Enrolment Type	Open enrolment
Program Type	Undergraduate
Credential Granted	Baccalaureate Degree
Offered At	Langley
Format	Full-time Part-time Co-op
How to Apply	www.kwantlen.ca/admission

#### DESCRIPTION

The new Bachelor of Horticulture Science program is an interdisciplinary program that combines horticulture, business, mathematics, biology, and chemistry. Students will combine the science and practice of in horticulture to resolve community, industry, or research related problems. Innovation and creative thinking are important essential skills that students gain through their involvement in research and enterprise projects. The important themes of the program are the roles of sustainable horticulture in our communities and environments, and the cultural, social, and economic influences on the practice of sustainable horticulture.

The Bachelor of Horticulture Science program has the following strengths:

- Customized education through the selection of electives that support learner educational goals
- Laddering within the School of Horticulture programs and articulation with other horticulture programs in BC to support lifelong learning
- Emphasis on the economic, environmental, and social components of sustainability
- Strong connections with the horticulture industry and community groups
- Development of essential skills such as teamwork, creative thinking, problem solving, and communication
- Capstone research courses which include a business plan and the application of new skills to a community based issue
- Required work experience in the first two years and in the community based project during the 4th year

Urban Ecosystems students study the impacts of horticultural activities in the urban environment. Students will learn how to assess the characteristics of urban ecosystems as they relate to landscape function and health. Outcomes include the ability to monitor and analyze the impact of horticultural activities on the local environment, remediate inefficient or ineffective gardens or landscapes, and install landscape features that make a positive

contribution to the goal of a sustainable community. Of particular interest is the functioning of urban greenspaces at the edges of residential, industrial, agricultural, and natural habitats.

Students may have the opportunity to engage in international studies. Recently students participated in a three month exchange to Cuba where they worked on a range of plant health related research.

#### STUDENT PROFILE

Individuals interested in improving the quality of our urban environment are encouraged to apply. This program will appeal to students who are interested in an applied science program where they will both analyze problems and implement solutions that enhance and protect our greenspaces. Students with an interest in the effects of varied societal perspectives on public policy development and the implementation of sustainable practices in urban greenspaces will find this program of value.

Students interested in the specific horticulture industry sectors of greenhouse and nursery production, landscape design and installation, or turf management will be able to complete a Diploma in Horticulture Technology as a foundation to completing the Bachelor of Horticulture Science.

#### CAREER OPPORTUNITIES

Upon completing the Bachelor of Horticulture Science graduates will be qualified to compete for:

- Technical positions in the Environmental Sector of the Economy
- Landscape and Grounds Maintenance Contractors
- Urban Horticulturists
- Growers in Production Horticulture Operations
- Crop Consultants
- Golf Course Superintendents
- Technical Representatives for Horticulture or Agriculture Supply Companies
- Parks Managers
- Specialized Horticulture Enterprises (i.e. Green Roof Installation and Maintenance)
- Landscape Architecture (B. Sc. Hort. as a potential qualifying program)
- Graduate studies in Horticulture or related fields (subject to specific graduate school admission requirements)

# PROGRAM ADMISSION REQUIREMENTS

In addition to Kwantlen's General university admission requirements, including the undergraduate-level English Proficiency Requirement, the following program admission requirements apply:

#### Year One Admission:

- English 12 with a B grade (or equivalent)
- Principles of Math 11 with a C grade (or equivalent)
- Chemistry 11 with a C+ grade (or equivalent)

#### **Year Three Admission:**

 Horticulture Technology diploma or equivalent with a Program Grade Point Average of 2.5

■ English 12 with a B or equivalent (writing the Kwantlen			HORT 1240	Arboriculture I	3 credits
Polytechnic University English Placement Test is recommended if a candidate cannot meet the required			HORT 1246	Plant ID for Production	1.5 credits
minimum letter grade)			HORT 1255	Plant Identification 2	1.5 credits
•	fath 11 with a C or equivalent		HORT 1261	Plant Propagation	3 credits
<ul><li>Cnemistry 11 v</li><li>General Education</li></ul>	with a C+ or equivalent		HORT 1271	Production Practices - Spring	2 credits
	ation o credits stroduction to Sustainable Hortic	culture (3	HORT 2304	Grounds Machinery	2 credits
credits)			HORT 2320	Landscape Design 1	3 credits
PROGRAM REQUIREMENTS  The Bachelor of Horticulture Science, Major in Urban Ecosystems consists of 121 credits of course work.		HORT 2330 Turfgrass and Env Stress	Turfgrass and Environmental Stress	ronmental 3 credits	
		HORT 2334	Irrigation, Drainage and Lighting	3 credits	
Horticulture Science Degree Requirements			HORT 2335	Sports Turf Management Practices	2.5 credits
YEAR 1 AND YEAR 2			HORT 2355	Plant Identification 3	3 credits
	LAN Z		HORT 2371	Fall Floriculture	3 credits
All of: BUSI 1205	Supervisory Skills	3 credits	HORT 2372	Greenhouse Vegetable Production	3 credits
BUSI 1209	Business Management in Horticulture	3 credits	HORT 2375	Production Facilities and Equipment	3 credits
CBSY 1105	Introductory Computer Applications	3 credits	HORT 2412	Landscape Estimating and Contract Administration	3 credits
CMNS 1140	Introduction to Professional	3 credits	HORT 2420	Landscape Design II	3 credits
LIODT 4400	Communication	0 14	HORT 2426	Landscape Construction	3 credits

HORT 1134	Turf Maintenance Operations	2 credits	110K1 4440	Vegetation Management (under development)	3 GRUIS
HORT 1171	Production Practices - Fall	2 credits	HORT 4480	Society and Horticulture	3 credits
HORT 1224	Landscape Drafting	3 credits		(under development)	
HORT 1230	Sustainable Turf Management	3 credits			

In the event of a discrepency between this document and the official Kwantlen 2012-13 Calendar (available at www.kwantlen.ca/calendar/2012-13), the official calendar shall be deemed correct.

HORT 4810	Enterprise Project (under development)	3 credits
HORT 4820	Research Project (under development)	3 credits
PHIL 3033	Business Ethics	3 credits

#### And three credits of Liberal Education Electives

And three credits of upper level writing intensive electives

## **Urban Ecosystems Major**

In addition to the Horticulture Science Degree Requirements (above), students must complete:

#### All of:

HORT 3210	Applied Urban Ecosystems	3 credits
HORT 3230	Urban Watershed Planning	3 credits
HORT 3250	Monitoring, Inventory, and Assessment of Plant Communities	3 credits
HORT 3270	Urban Agriculture	3 credits
HORT 3251	Landscape and Environment 1	3 credits
HORT 4231	Riparian Management (under development)	3 credits
HORT 4252	Landscape and the Environment: Applications (under development)	3 credits
HORT 4253	Urban Ecology (under development)	3 credits

### **CREDENTIAL AWARDED**

Upon successful completion of this program, students are eligible to receive a **Bachelor of Horticulture Science in Urban Ecosystems**.
