Enrolment Type	Limited enrolment
Program Type	Vocational
Credential Granted	Citation
Offered At	Cloverdale
Format	Full-time
How to Apply	www.kwantlen.ca/admission

DESCRIPTION

In this 24 week program students will be educated in theoretical knowledge and trained in the practical skills that industry requires of graduates to be job-ready as Millwright apprentices. Particular attention is paid to ensuring that all students gain critical core knowledge, appropriate trade skills, a professional attitude, employability skills, and the academic components necessary to continue on their post-secondary career path. Students will gain skills and knowledge in the areas of machine tool use, as applied to mechanical maintenance and construction. Additional information is available on our program website at: kwantlen.ca/trades/millwright.

This program is based upon the Provincial Outline for the millwright trade. Students who complete the Foundation program are eligible for credit for the first level of apprenticeship in-school technical training, as well as receive 425 work-based training hours toward completion of the Millwright/Industrial Mechanic apprenticeship program.

For further information about the trade please check the Red Seal website.

PROGRAM ADMISSION REQUIREMENTS

In addition to Kwantlen's General university admission requirements including the vocational-level English Proficiency Requirement, the following program admission requirements apply.

- English:
- Mathematics:
- Interview by an instructor

Notes:

- International student Application for Admission requires approval of the Dean.
- Physics 11 is an asset but not a requirement.

Recommend satisfactory physical health. Prior to applying, prospective students with mental or physical impairments, who may require program accommodations, should contact the Office

of the Dean of Trades and Technology to discuss required skills and competencies, and a Disability Advisor at 604.599.3233 to ensure appropriate accommodations can be arranged.

PROGRAM REQUIREMENTS

Hands-on shop experience is the basis on which skills are developed. Various forms of classroom and shop instruction including lectures, labs, shop assignments, team assignments, practical demonstrations, hands-on training, structured projects, individual demonstration of technical skills, and group lectures will be utilized. Also, independent study modules and directed studies modules supplemented with a wide selection of audiovisual material are available where necessary. The program focuses on direct contact between students and faculty. In addition, the expertise of other departments will be utilized to deliver specialized courses.

Speaking the language of the trade is necessary for the graduate in dealing with other trades and service people, distributors and manufacturers. Students will be required to gain proficiency in trade terminology and interpersonal and employability skills.

The student will develop the safe work habits, knowledge and ability required in industry today.
