#### DESCRIPTION

The Bachelor of Arts, Major in History, provides students with the opportunity to study the many peoples and cultures whose contributions have created the world in which we live today. The degree allows students to develop the knowledge, core competencies, and skills characteristic of a traditional BA program, while preparing them to respond creatively and innovatively to a range of challenges in our community and our world. Whether they pursue a general History BA, or choose a specialization in either the Asian or Military History streams, students will gain the literacy and analytical skills essential in today's labour market. Equally importantly, students will become better-informed citizens of our increasingly interconnected world. Our degree students will also benefit from our faculty's commitment to teaching excellence and from the small class sizes at Kwantlen Polytechnic University.

All History degree programs are reading and writing intensive. For this reason we strongly recommend that students complete the English requirements of the BA framework within their first two years at KPU.

#### CAREER OPPORTUNITIES

The versatility of the Bachelor of Arts, Major in History allows students to design their program of study such that it prepares them for careers or further study in areas such as business, community service, law, policing, elementary and secondary education, public history, the military, professional writing, public administration, self-employment, and social work, as well as graduate programs in History.

The History BA provides several thematic streams which allow students to enter traditional graduate programs, as well as more specialized programs such as those offered at the University of Victoria, University of British Columbia, University of Toronto, University of Calgary, University of New Brunswick, and the Royal Military College. The Bachelor of Arts, History, also offers students an upper-level capstone course on the applications of history that prepares them for leadership roles in the community

and equips them with skills applicable to the fields of teaching, public history, archival work, and research.
