DESCRIPTION

The philosophy major at Kwantlen Polytechnic University provides students a broad-based, general education in the principal areas of Western Philosophy. Philosophy majors will complete courses in logic, epistemology, metaphysics, ethics, and history of philosophy. The program is expressly set up to satisfy a variety of additional pedagogical and intellectual objectives, chief among these being the development of critical reasoning and writing skills, both in general and with regard to specialized research in the discipline. Philosophy majors at KPU will experience a learning environment that is supportive and challenging. It is one that prepares students for graduate work in philosophy. It develops effective citizenship, community leadership and the critical reasoning, writing and problem-solving skills required for successful careers in any area.

The Bachelor of Arts Major in Philosophy provides students the opportunity to build a sturdy educational foundation in one of the core areas of the Humanities. All majors take formal logic. At the 2000-level, five courses in philosophy are obligatory: Moral Theory (the study of the nature of right and wrong), Metaphysics (the study of the nature of reality), Epistemology (the study of the nature and limits of knowledge), Ancient Greek Philosophy and Modern Philosophy. Completing the major requires successful participation in a minimum of six courses at the 3000 and two at the 4000 level. Completing the minor in Philosophy requires Metaphysics and Epistemology at the 2000 level and five courses at the 3000 or 4000 level.

Third- and fourth-year students will have the following options: to take smaller, more participatory courses in Special Topics in Philosophy; to pursue an Applied Ethics Stream by taking specially designed courses in Business, Environmental, and Biomedical Ethics; to participate in a Practicum course where research and work skills are enhanced; and to apply to a selective sequence of honours courses with a focus on researching and writing an honours thesis.

CAREER OPPORTUNITIES

A philosophy major is a practical choice. A good reason to major in philosophy is that philosophy students develop skills that are transferable to a wide range of careers and professions,

particularly including business and law. Philosophy students learn how to identify assumptions, raise critical questions, and formulate creative, principled strategies for addressing complex problems. They develop expertise in structuring arguments, writing precisely and clearly, and communicating their ideas in an orderly, persuasive, and unambiguous way. Philosophy courses, in general, teach students how to read, comprehend, and summarize conceptually difficult material. In short, studying philosophy trains one to be a better, clearer and independent thinker.
