## DESCRIPTION

The Interior Design Program provides four years of full-time study (September – April), to students wishing to pursue a professional career in interior design and related environments.

The Program is accredited by the Council for Interior Design Accreditation (CIDA) at the first professional degree level. CIDA is an international agency whose mission is to "lead the interior design profession to excellence by setting standards and accrediting academic programs." The mission of KPU's Interior Design program is "educating leaders for the profession of interior design".

The Interior Design Department regularly upgrades its program to meet the ever changing needs of the industry.

We work closely with the professional design community and respond to the needs and advice of that community through the following:

- Provide an education that includes all facets of interior design with emphasis on experience and skills in theory, research, critical analysis, problem-solving, design concepts, working drawings and specifications, technology, presentation media techniques, professional business practices and procedures, and awareness of human needs in interior design and related environments
- Prepare students for work in interior design and/or architectural offices
- Provide a practical and theoretical knowledge base that conforms to the definition and practice of interior design as described by the National Council for Interior Design Qualification (NCIDQ) and as endorsed in the North American definition of an Interior Designer
- Provide education in developing career readiness

The Interior Design program simulates a professional design environment. This "virtual design studio" offers integrated courses and curriculum, and emphasizes learning outcomes and essential skills throughout. These include: leadership skills, problem solving and creative thinking skills, teamwork, personal management, writing/oral/visual and interpersonal skills, reading and research skills, visual literacy, mathematical and technological skills, citizenship, and an ability to view issues through a global

perspective. For a breakdown of our streams and courses, please see [kpu.ca/design/interior-design/courses](http://kpu.ca/design/interior-design/courses).

Interior Design information sessions are scheduled each fall in order to answer questions from prospective students and to allow applicants to view entry portfolios of current students. These sessions have been of great benefit to those interested in entering the program. Please visit [kpu.ca/events](http://kpu.ca/events) to confirm dates, times and location.

For more information on the Interior Design program, you may view our department web site at: [kpu.ca/interiordesign](http://kpu.ca/interiordesign).

## CREDENTIAL AWARDED

Upon successful completion of this program, students are eligible to receive a **Bachelor of Interior Design**.

This Bachelor degree, followed by two cumulative years of work experience in the profession, qualifies graduates to write the National Council for Interior Design Qualification (NCIDQ) examination. This in turn, allows professional membership in the Interior Designers' Institute of British Columbia (IDIBC), the Interior Designers of Canada (IDC), and various international interior design associations.

## OTHER INFORMATION

The third year of the program includes Major Field Studies as part of the curriculum requirements and the cost of travel is borne by the student.

The Interior Design program is delivered in an e-mobile environment which means students lease a laptop and all curriculum is housed online. Students need to include "fee for service" costs of the laptop and requisite course software for the duration of the 4 year degree program (approximately \$1,200 each year). **Students are advised not to purchase a laptop computer** as all required equipment, software and services will be supplied by KPU through this service.
