DESCRIPTION

In the BSc in Applications of Mathematics program, traditional mathematics courses are combined with specialized courses that enable students to apply their mathematical skills in diverse fields, providing a broad range of options for careers or further education. Students can choose from among three concentrations, Biomathematics, Computational Mathematics and Mathematics Education, that are not readily available at the undergraduate level elsewhere in Canada.

Please note, courses in Years 2, 3, and 4 may not be available on the Richmond campus.

ADMISSION REQUIREMENTS

Students pursuing a Major in Applications of Mathematics must be admitted to the Faculty of Science & Horticulture.

DECLARATION REQUIREMENTS

Students intending to graduate with this Faculty of Science and Horticulture degree must declare the credential by the time they complete 60 credits of undergraduate coursework. At the time of declaration, the student must satisfy all of the following requirements:

- In good academic standing with the University
- Completion of a minimum of 24 credits of undergraduate coursework, including the following:
  - MATH 1220 with a minimum grade of "C" or MATH 1230 with a minimum grade of "C+"

CURRICULAR REQUIREMENTS

General Requirements

All students must complete the following general requirements for a Bachelor of Science:

- A minimum of 120 credits and a minimum of 40 courses (at least 3 credits each) at the post-secondary level (numbered 1100 or higher).
- At least 45 of the credits (15 courses) must be at the 3000- or 4000-level; at least 9 of these credits must be at the 4000-level.
- A minimum of 18 credits of breadth electives (see Electives) including:
  - at least one 3000- or 4000-level course; and
  - at least 12 credits from fields or courses not regarded as science; and
  - a maximum of 6 credits may come from fields of science not already included in the Applications of Mathematics Major requirements.
- A minimum of a passing grade (D or better) in all courses counting towards the BSc, with a cumulative GPA of 2.0.

To meet residency requirements, at least 50% of all courses for the BSc, and at least 66% of upper level courses for the BSc, must be completed at KPU.

Note: The following courses with considerable content overlap may only be counted once:

- (MATH 1120 or MATH 1130 or MATH 1140),

Applications of Mathematics Honours

In addition to the requirements listed for Applications of Mathematics Major shown below, Honours students will need to select a total of at least 36 credits from List A (see below).

Students must complete 132 credits overall and maintain a Cumulative Grade Point Average (CGPA) of 3.0 and a minimum GPA of 3.0 in all upper division Mathematics courses.

To qualify for the Applications in Mathematics Honours degree, students must have been admitted to the Honours program prior to earning the Applications in Mathematics degree. Students may receive either the Applications in Mathematics degree or the Applications in Mathematics Honours degree, but not both.
