DESCRIPTION

The Operations and Supply Chain Management Specialist (OSCM) program is designed for students who have completed a Bachelor's degree with industry experience, or have a technical or science diploma with significant relevant industry experience.

The OSCM program will allow students to develop critical thinking and analytical skills, communication skills, effective project management abilities, teamwork and interpersonal skills. Students will attain a solid understanding of how to interpret and synthesize core business, financial and performance data to make informed decisions.

Focused OSCM content prepare students to apply best in practice processes and tools to a wide range of operations and supply chain areas, identify and assess performance improvement opportunities in a variety of industries, and competently support informed decision making. Note: This is a two-year program, though students can choose to complete the program in an accelerated form.

ADMISSION REQUIREMENTS

In addition to the Faculty's Admission Requirements, which consist of KPU's undergraduate English Proficiency Requirement, the following program admission requirements apply:
