Connecting to Kwantlen's Secure Wi-Fi with Android

1. Tap the **Settings** icon, and pick Wi-Fi.

2. **Students:** Select the **KPUSecureStudent** from the list of available networks.

   Employees: Select the **KPUSecureEmployee** from the list of available networks.

3. Scroll down until you see the Identity and Password text fields.

   Students: Enter your student ID and PIN and tap **Connect**.

   Employees: Enter your username and password and tap **Connect**.

4. You may be prompted to accept a certificate. If the certificate was issued by DigiCert, to **sac-radius-01.kwantlen.ca or sac-radius-02.kwantlen.ca**, accept it.

5. You should be returned to your list of Wi-Fi networks, and successfully connected to the secure Wi-Fi network.
