What was your impression of the international staff or office?	on campus – which I did in person three days after I received an acceptance letter — my documents were then lost by my correspondent; I awaited a reply for two weeks before I discovered they had been misplaced. I failed to receive a space in halls.
What was the orientation like at your partner university, if there was one? How well did it suit your needs?	N/A
	There was someone to speak to but it was unnecessary. I found adjustment to be relatively painless – though I did get homesick and frustrated at times when the honeymoon period ended!
How receptive were the local people in providing assistance?	Very receptive – most people are willing to help. I have not experienced any hostility.
HOUSING	
Describe your accommodation arrangements.	I lived in a house.
How early could you move into housing before term and how long after the end of term were you allowed to stay?	N/A
How comfortable were you with your accommodation?	Very comfortable. I mostly lived half way between the school and London.
Describe what you did about meals and what other options were available. How satisfied were you with the food?	I cooked at home and the food was great. The shops have good deals but if you want anything baking related, Waitrose is the best! And you can get Root Beer and "Cloudy" Lemonade there; though otherwise they are pricey. The pubs have great food and Brick Lane has the best curry restaurants.
How close was your accommodation to where you had to study?	I allowed for one hour of travel time because I had to take the train – but it could take 45 minutes or less.
COURSE REGISTRATION	
Please describe the registration	Registration was clearly communicated through student mail and it was easy to show up and provide my passport and student number.
How successful were you in registering for classes? What advice would you offer to another exchange student about how to register at your	I was not given the contextual studies course I chose before I left for England and had to speak to the course coordinator and fill out a form to request my preferred class. The coordinator was unwelcoming and difficult at first but I was able to take the course of my choosing at the end.

host institution?	
How many courses did you take per semester? What course load would you recommend for future students? What particular courses would you recommend to other students?	3 courses. I personally enjoyed Pop Culture for contextual studies but no matter what course you take, they all cover the same concepts like "Gender and Identity" or "Communication" through different topics like "Postmodernism" or "Music Journalism"
How satisfied were you with the amount of knowledge/skills you obtained from your host?	Satisfied but felt I was falling behind whilst away from Kwantlen.
How did the style of teaching compare with that in Canada? How did the workload compare to what you would expect in Canada?	The teaching was very different; there is a lot more self-initiated content and learning. The workload is very manageable and felt like a good break from the intensity of Kwantlen. However, the school provided more opportunities for students to participate in the design industries' events and other creative events in London. I felt that the Graphic Designers' Society of Canada or even the schools could provide the same opportunities to students through discounted or sponsored tickets.
How many courses did you take during your time abroad?	3
What impact did the language barrier have on your learning?	N/A
What was your impression of the computer facilities, library, internet access, specialized equipment and supplies	All of these were acceptable. The specialized equipment was fantastic and I wish we had access to a screen print room. Students could do letterpress, screen and emboss.

Accommodation – per month	\$500 CAD (usually closer to \$800)
Meals – per month	Aprox. \$360 CAD
Local transportation – per month	Unknown. I advise future students to apply for a 16-15 Railcard and get it linked to their Oyster card for discounted, streamlined travel.
Health insurance – per term	Unknown.
Communications (internet, phone, etc.) – per term	Unknown. Maybe \$30 CAD.
Travel documents (passport, entry visa, etc.)	Visa cost me \$211 CAD but within a week had risen from \$100 CAD so it varies.
