

Small Scale Poultry Production

- Poultry is a regulated farm product.
- Marketing boards for Chicken, Turkey and Eggs

	Quantity with no permit	Quantity with permit/ grower-vendor	New Entrant Program
Chicken	200 birds (personal use)	2,000 birds marketed	Yes
Turkey	50 birds (personal use)	300 poults	Yes
Eggs	99 hens (farm gate only)	300 hens	'Yes'

Our Story?

- We raise birds outside – all the time.
- We grow birds closer to full-size. Chicken roasters range from 6lbs to 8lbs and turkey hens from 20lbs to 24lbs.

How do we do it?

Start with day old chicks and poults

Brooders have natural gas heat, adjustable ventilation and nipple drinkers. Climate control in brooders is very important.

FARM STORE

How do we sell our product?

- Farm gate sales
- Some turkeys to meat markets
- Winter Farmer Markets

Predators

All poultry operations with production quota have premise ID numbers and are audited annually for biosecurity and on-farm food safety

When producing more than 400 chickens per batch it is time for bulk feed!!!
