## A message from our students

My time at TBS Education has been hands down **one of the best experiences of my life!** Starting from the city itself, Toulouse is undoubtedly an amazing student city filled with friendly people, a vibrant nightlife that is equally safe making it extremely fun to explore. Moreover, the **TBS Education Summer Program itself is so unique because you're surrounded by solely international students, and you build bonds for a lifetime.** Similarly, the professors all come from interesting professional backgrounds and are from all around the world, they were also very approachable which created a great classroom environment abroad. **TBS Education also curates a great social program to ensure you're not only experiencing Toulouse but bonding with all your peers whether it be through company visits, day trips to local sights, kayaking and more!** While many people may feel that it's a too bad I didn't go on a full term exchange as an accounting student looking to pursue my CPA which would make a full term exchange difficult for me, the TBS Education Summer Program was perfect, giving me a unique experience that I highly recommend! Toulouse has found a special place in my heart and memories I'll forever remember to go along with it!
