

Nursing: Bachelor of Science in Nursing Post-Baccalaureate

Faculty of Community And Health Studies	kwantlen.ca/health
Implementation Date	01-Sep-2012
Start Date(s)	September
Admission Type	Selective entry
Enrolment Type	Limited enrolment
Program Type	Undergraduate
Credential Granted	Baccalaureate Degree
Offered At	Langley Online
Format	Full-time
How to Apply	www.kwantlen.ca/admission

DESCRIPTION

Intended for students who already have a baccalaureate degree (four-year, undergraduate), this program allows students to transition to the field of Nursing.

Students who are beginning their degree should consider the Bachelor of Science in Nursing Undergraduate.

Registered Nurses planning to complete their degree should consider the Bachelor of Science in Nursing Degree Completion.

The program is recognized by the College of Registered Nurses of British Columbia (CRNBC) .

The purpose of the program is to educate nurses to practice with a variety of clients in various settings guided by a health promotion perspective and a capacity for effective relational engagement.

Through relational engagement, the program will assist students to develop sensitivity to people's experiences with health and healing. Students will learn to work as partners with clients and with other health care providers. Students learn to be independent, accountable, reflective, self-directed, self-motivated and life-long learners with questioning minds and familiarity with inquiry approaches to learning. They make decisions for nursing practice based on multiple ways of knowing such as critical thinking, intuition, research and evaluation. Students learn to create and influence the future of nursing practice at political, social and professional levels by responding to and anticipating changing needs of society.

Students complete seven (7) academic semesters to graduate with a Bachelor of Science in Nursing (BSN) degree. Graduates will be eligible to apply to write national examinations to obtain registration to practice as registered nurses in British Columbia.

The curriculum of the Bachelor of Science in Nursing Post Baccalaureate degree program is based on the concepts of health promotion, relational engagement, praxis, critical inquiry and professional role. Two concepts - health promotion and relational engagement are considered over-riding concepts since they represent the essence of nursing. The other three concepts are considered core concepts since they are essential elements of nursing practice. In the curriculum, the five concepts are used

in course titles as organizing threads and are also threaded through each course in the program. As well as reflecting the nature of nursing, these concepts relate to the process of nursing education. For example, client-centeredness and a focus on strengths, relational engagement, critical inquiry, praxis and professionalism are essential elements in learning to become a nurse, thus are key features of the learning environment.

Delivery Methods

Program courses are offered in a hybrid or blended course format through residencies at Kwantlen, practice within health care agencies and communities, combined with distributed or online learning formats, taking advantage of the well-developed higher order thinking skills of a baccalaureate graduate. Hybrid courses are those in which a significant portion of the learning activities have been moved online, and time traditionally spent in the classroom is reduced but not eliminated. The goal of hybrid courses is to join the best features of face-to-face teaching with the best features of online learning to promote active, independent learning, and reduce place-bound learning. Using computer-based technologies, instructors use the hybrid model to redesign some lecture or laboratory content into new online learning activities, such as case studies, tutorials, self-testing exercises, simulations, and online group collaborations.

Nursing Practice Experiences

Nursing practice experiences are essential in the nursing program. Students will be directly involved with clients in their homes and in institutional and community settings in each semester. Professional and faculty mentorship is implemented to provide orientation, social support, and networking partnerships with clinicians and researchers. Practice experiences occur in diverse geographical areas, and may be organized in students' own communities as appropriate and available. Students are responsible for their own transportation and other expenses incurred as part of these experiences.

Some agencies may require students to take an Oath of Confidentiality, have a criminal record search, have required immunizations, or have a successful interview with their personnel prior to their agreement to accept the student. Failure to have documentation acceptable to the agency at the time of placement may result in denial of the experience, which in turn may prevent completion of the program of studies.

CAREER OPPORTUNITIES

Graduates of the program are prepared to work as professional nurses in direct care provider, educator, clinician, manager, and/or entrepreneur roles. Graduates will also be prepared for entry to graduate studies in nursing and other disciplines.

PROGRAM ADMISSION REQUIREMENTS

In addition to Kwantlen's General university admission requirements including the undergraduate-level English Proficiency Requirement, the following program admission requirements apply.

- Successful completion of a baccalaureate degree within six (6) years of the date of entrance into the program, including sixty (60) university transfer credits (30 credits of which must be at the third and fourth year level).

Note: Kwantlen Bachelor of Psychiatric Nursing graduates receive advanced placement into semester three (3) of the program.

- Equivalency of first year anatomy and physiology courses (BIOL 1160 and BIOL 1260) *
- Three (3) credits in Humanities, Social Sciences or Arts *
- Six (6) credits of English (including equivalency of ENGL 1100) *

* **Note:** These requirements may be part of the 60 university credits

Once students have received a conditional offer of admission and before final admission to the program is granted, students must submit the following:

- CPR level C certificate (Note: CPR certification must remain current throughout the program and may be required annually by some practice agencies)
- Current standard first aid certificate
- Criminal record check through the Ministry of Public Safety and Solicitor General's Criminal Records Review Program
- Record of current immunizations

Note: This program is recognized by the College of Registered Nurses of British Columbia (CRNBC) which is the regulatory body for registered nurses in this province. In order to practice nursing upon graduation, students must meet the CRNBC English Requirements and Requisite Skills and Abilities for practicing nurses. To learn more visit www.crnbc.ca.

PROGRAM REQUIREMENTS

The program consists of 93 credits all at the upper (third- and fourth-year) level.

In accordance with the *Indicators of Nursing Education Standards* established by College of Registered Nurses of British Columbia (CRNBC), the maximum allowable time students enrolled in Kwantlen's Bachelor of Science in Nursing program have to complete all program requirements for graduation is seven years.

Note: NRSNG courses number 5000 or higher are assessed Tuition Category 2.a.4 tuition and fees for domestic students.

Semester One

Theoretical Focus: Individual Health and Health Promotion

Practice Focus: Nurses' Roles & Responsibilities in Medical and Surgical Nursing

All of:

NRSNG 5100	Program Orientation: Introduction to Nursing	2 credits
NRSNG 5110	Practice and Praxis 1: Episodic Health Challenges	4 credits
NRSNG 5120	Relational Engagement 1	2 credits
NRSNG 5130	Health Promotion 1: Episodic Health Challenges	4 credits
NRSNG 5131	Health Promotion 2: Pharmacology 1	1 credit
NRSNG 5140	Critical Inquiry 1: Quantitative Research	1.5 credits
NRSNG 5141	Critical Inquiry 2: Qualitative Research	1.5 credits

Semester Two

Theoretical Focus: Individual Health and Chronic Health Challenges

Practice Focus: Nurses' Roles & Responsibilities in Mental Health and Geriatric Nursing

All of:

GNQU 1301	Fundamentals of Mental Health Nursing	3 credits
NRSNG 5210	Practice and Praxis 2: Older Adults	4 credits
NRSNG 5220	Relational Engagement 2	2 credits
NRSNG 5230	Health Promotion 4: Pharmacology 2	1 credit
NRSNG 5240	Critical Inquiry 3: Data Analysis	2 credits
NRSNG 5250	Professional Role 1	2 credits

Semester Three

Practice Focus: Nurses Roles & Responsibilities: Consolidation of practice in medical surgical and mental health nursing

All of:

NRSNG 5310	Practice and Praxis 3: Capstone 1	18 credits
------------	-----------------------------------	------------

Kwantlen Bachelor of Psychiatric Nursing graduates with advanced placement must also complete:

NRSNG 5300	Program Orientation: Access for BPN graduates	2 credits
------------	---	-----------

Semester Four

Theoretical Focus: Family Health

Practice Focus: Nurses' Roles & Responsibilities with Generative families and in Pediatric Nursing

All of:

GNQU 1309	Fundamentals of Maternal-Child Nursing	3 credits
GNQU 1321	Fundamentals of Pediatric Nursing	3 credits
NRSNG 5410	Practice and Praxis 4: The experience of nursing of families	5 credits
NRSNG 5420	Relational Engagement 3: Family Context	1 credit
NRSNG 5450	Professional Role 2: Teaching and Learning	1 credit

Semester Five

Theoretical Focus: Community Health and Community Capacity Building

Practice Focus: Nurses Roles & Responsibilities in Community Health and Community Capacity Building

All of:

NRSG 5510	Practice and Praxis 5: Community Context	5 credits
NRSG 5520	Relational Engagement 4: Community	2 credits
NRSG 5530	Health Promotion 7: Community Context	2 credits
NRSG 5540	Critical Inquiry 4: Nursing Theories	2 credits
NRSG 5541	Critical Inquiry 5: Health Care and Bioethics	2 credits

Semester Six

Theoretical Focus: Global Health and Leadership

Practice Focus: Nurses' Roles and Responsibilities in Primary
Health Care (International/Aboriginal)

All of:

NRSG 5610	Practice and Praxis 6: Global Context: Capstone 2	5 credits
NRSG 5620	Relational Engagement 5: Global Context	2 credits
NRSG 5650	Professional Role 3: Health Care Leadership	2 credits

Semester Seven

Practice Focus: Nurses' Roles & Responsibilities in Full-time
Nursing Practice

All of:

NRSG 5710	Practice and Praxis 7: Practice Consolidation: Capstone 3	10 credits
-----------	---	------------

CREDENTIAL AWARDED

Upon successful completion of this program, students are eligible
to receive a **Bachelor of Science in Nursing (BSN)**.
