

Climbing Arborist: Apprenticeship

Faculty of Science and Horticulture	kpu.ca/science
Horticulture	kpu.ca/hort
Implementation Date	02-Mar-2015
Start Date(s)	Varies
Intake Type	Apprenticeship
Instructional Cycle	Fixed-term
Program Type	Vocational
Credential Granted	No Credential
Offered At	Langley
Format	Full-time
How to Register	www.kpu.ca/apprentice

DESCRIPTION

Arborists manage and care for trees in our urban environment. The Climbing Arborist program is the second of three sequential trades credentials in arboriculture. A climbing arborist's job focuses on tree work such as pruning, disease control, structural support, and tree removal.

The Climbing Arborist Apprenticeship links learning and employment by providing apprentices the opportunity to further their education, while maintaining full-time employment in the arboriculture industry. An apprenticeship is established when an employer and employee complete, sign and register an Apprentice and Sponsor Registration form with the Industry Training Authority (ITA, www.itabc.ca) Apprentices may also apply to the ITA for work-based training completed before the apprenticeship is established. Refer to www.itabc.ca for information.

Climbing Arborist apprentices attend one 8-week long technical training session at the Langley campus of KPU. Topics include aerial lift operations, tree identification, tree pests and disease management, pruning, tree support, rigging, climbing, aerial rescue, job planning, and risk assessment. The curriculum used for technical training has been developed and approved by the arboriculture industry.

Journeypersons in arboriculture are in demand. Municipal parks departments and the large private arboriculture industry sector require certified climbing arborists to fill a significant number of positions.

Training Schedules

KPU apprentice training schedules and waitlists are published on Kwantlen Course Search. Additional apprenticeship training opportunities are listed on Trades Training BC; this is the hub for BC's Public Trades Training Programs & Services.

Costs

In addition to applicable tuition fees, students will incur expenses for the following:

- textbooks
- school supplies

- safety footwear (in conformance with WorkSafeBC regulations)
- climbing gear
- rain gear
- field trips
- travel
- accommodation and food

Financial Supports for Apprentices

Apprentices may be eligible for financial support for the in-class portion of their training through the EPBC Apprentice Program Financial Supports. Application to this program must be made four to six weeks prior to the start of technical training. Information is available through WorkBC.

Apprentices must apply separately for Employment Insurance (EI) Benefits no later than the last week of work, or during the first week of training, or they will not be eligible to receive EPBC Apprentice Program Financial Supports. EI information can be obtained by visiting Service Canada.

The Canada Apprentice Loan is an initiative of the Government of Canada. As of January 2015, apprentices can apply for up to \$4,000 in interest-free loans per period of in-school technical training. Information is available at the Canada Apprentice Loan Service Centre.

STUDENT PROFILE

Students interested in this apprenticeship program should have a strong desire for hands-on outdoor work, enjoy nature and living things, be concerned about the environment, and have entrepreneurial talents. Individuals with allergies to dust, pollen or plant products, or specific chemicals should be aware of the potential impact on their health. Physical fitness and a healthy back are required for a successful career in arboriculture. Apprentices may work with plant protection products.

GENERAL PREREQUISITES

The following requirements apply:

- Completed KPU Apprentice Registration
- Active apprentice registration in the BC Apprenticeship system.
- Valid Trade Worker Identification number from the Industry Training Authority (ITA-ID). If you do not have an ITA-ID, you will need to complete an apprenticeship registration form through the ITA (www.itabc.ca) prior to enrolling (Level 1 through to 4). To determine your eligibility please consult with the Industry Training Authority.
- Completion of Arborist Technician
- Class 5 driver's license
- English 10 or better preferred

Note: International student enrolment requires approval of the Dean.

CURRICULAR REQUIREMENTS

Notes: AARB courses are assessed Tuition Category 2.b.2 tuition and fees for domestic students.

KPU Tech does not permit students to register in Apprenticeship Levels out of sequence.

Climbing Arborist (AARB 1020)

- Regulations, Safety, and Site Inspection
- Tree Identification
- Management of Pests and Diseases
- Rigging, Climbing, and Cutting Trees
- Safe Aerial Operations and Aerial Rescue

CREDENTIAL AWARDED

Upon successful completion of an apprentice level, KPU will report your technical training completion information to the Industry Trade Authority (ITA) in order for the ITA to determine credit towards your designated apprenticeship.
