➤ HUMAN RESOURCES (Online)

Applying Lean Sigma Practices to HR Functions (LERN)

*Course #: HRST 9000**

Develop the mindset of Lean Operational Excellence, and advanced problem solving approach that facilitates continuous improvement within the organization through the identification and elimination of waste. Lean principles can also be used to streamline processes in the human resource functions such as recruiting, hiring, training, compensating and managing performance. Find out about Lean concepts, tools and methods with which you can benchmark and assess problems, and lead continuous improvement efforts to resolve them. After taking this course you will have an expanded capacity to facilitate small groups and teams using Lean Process Improvement principles and methodologies to create change within your organization.

Onboarding New Employees (LERN)

*Course #: HRST 9001**

Ensure a smooth transition from best candidate to star employee. Onboarding is the process of socializing new employees into the organization. Onboarding of employees begins well before traditional new-hire orientation and has long reaching implications. At the conclusion of the class you will have constructed an Onboarding Program for use in your own organization.

➤ MANAGEMENT (Online)

Lean Six Sigma (LERN)

*Course #: MGMT 9002**

In today's world, Lean is a part of the business environment. Lean Six Sigma attacks inefficiencies, non-value added wastes caused by defects, non-value-added flow of information or materials, non-productive time, data storage, stacks of inventory, over production and extra processing. With Lean Six Sigma techniques you will have the skills to lead successfully in both service and manufacturing industries.

Stress Management (LERN)

*Course #: MGMT 9003**

Stress isn't the enemy. It is our perceptions of stress that amp our anxiety and use up all our steam. How we interpret those events can set the stage for how we feel and how we react to others. Turn stress into a stepping stone, not a stumbling block.

Collaborative Management (LERN)

*Course #: MGMT 9006**

Whether you manage or lead people, collaborative skills are essential to help harness the energy of groups and teams for maximum performance and productivity. Knowledge of collaborative skills will enable you to gain participation quickly, get input and buy-in for building consensus and plan for cooperation to get crucial projects completed. This course will help you explore the principles of collaborative management and gain insight on how to expand your collaborative skills for success of your team or organization.

Embracing Sustainability in the Workplace

*Course #: BUSK 9022**

It's a smart business practice and the right thing to do. Find out how to implement sustainability solutions for your workplace. Gain practical information for yourself and your employees to begin on Monday morning. Brand your organization in the world of environmental stewardship. Your instructors will detail and deliver practical approaches and applications toward implementing sustainability with guidance in planning procedures. Take back practical tips on operating your indoor environments to consider air, water, lighting, fitness, nutrition, mind and comfort. For anyone pursuing a career in a company or in government where there is an effort to build awareness and to gain a deeper understanding of the importance of environmental stewardship and overall social responsibility.

Introduction to 3-D Printing

*Course #: BUSK 9023**

3D printing has been hailed as a solution to all manufacturing problems. Obviously that is exaggerated, but what is it good for (and when is traditional manufacturing still the better choice?) In this course you will learn how to separate the real promise of the technology from the hype, and understand the workflow for a consumer-level 3D printer. You will become familiar with some typical online databases of objects available to print, and get a bit of experience with free or open-source software for all stages of the process. This class will be primarily focused to introduce you to the tools of the open 3D printer ecosystem, but the principles will apply to consumer 3D printers in general.

Writing News and Press Releases (LERN)

*Course #: BUSK 9024**

Being able to write a good news story, press release or publicity notice is a skill that can set you apart in the workplace. Getting the word out is an essential activity for every organization. Acquire the skills good journalists have and learn how to craft a news story, press release or publicity notice that will get attention.

Change in the Workplace (LERN)

*Course #: BUSK 9027**

Most people do not like change even when they know that change is inevitable and will happen with or without your consent. A recent Gallup study found that nearly 70% of the American workforce is disengaged from their jobs. They perceive changes in careers to be too difficult to accomplish or they are too old, not skilled enough and may lack the funds to change their skill set. The good news is that those who are willing to embrace change are much more likely to thrive under new conditions. Take home strategies on how to deal with changes in your work environment and even how to introduce changes to your workplace culture.

PREZI (LERN)

*Course #: BUSK 9002**
