Connecting to eduroam with OS X

1. In the menu bar, click **Turn Wi-Fi On**.

2. You will see a resulting list of Wi-Fi networks. Select the **eduroam** network.

3. You will be prompted for login credentials.

   **Students**: Enter your KPU email address (ending with @email.kpu.ca) as your username. Enter your PIN in the password field. Click **Join**.

   **Employees**: Enter your KPU email address (ending with @kpu.ca) as username. Enter your password. Click **Join**.

4. You may be asked to verify the certificate. If so, click **Show Certificate**.
5. Ensure that the certificate was issued by DigiCert, and provided to sac-radius-01.kpu.ca, sac-radius-02.kpu.ca, or rc-raddius-01.kpu.ca. If it was, click Continue.

6. Enter your name and password to update your Certificate Trust Settings. Click Update Settings.

7. From the Wi-Fi menu in the Menu bar, click Open Network Preferences. In the Network window, click on Advanced.
8. Drag eduroam below the KPUSecure network(s), so your Mac will only connect to eduroam if the other networks are unavailable.
