The KPU Distinction

As KPU looks to its next five years, the future of our society is under considerable discussion. It is a future where:

- as a result of digital transformation, the nature of work and ways of life are evolving;
- awareness of and demands for action around social injustice are heightened;
- environmental degradation such as global climate change is reversed, or its effects are increasingly manifest;
- decolonization of institutions and full inclusion of Indigenous peoples is a priority.

To respond to these challenges and to make the world a better place, **access to lifelong, meaningful education for all** is fundamental.

- defining and developing the essential new competencies needed by our graduates, encompassing both technical and human literacies, creativity, adaptability, and social awareness.
- ensuring that our graduates are prepared for a life time of learning and re-learning.
- practicing what we preach as we evolve as a unique, progressive and highly regarded polytechnic university which fosters innovative teaching and learning and relevant research and scholarship.
