# Ecologist, Director of Research

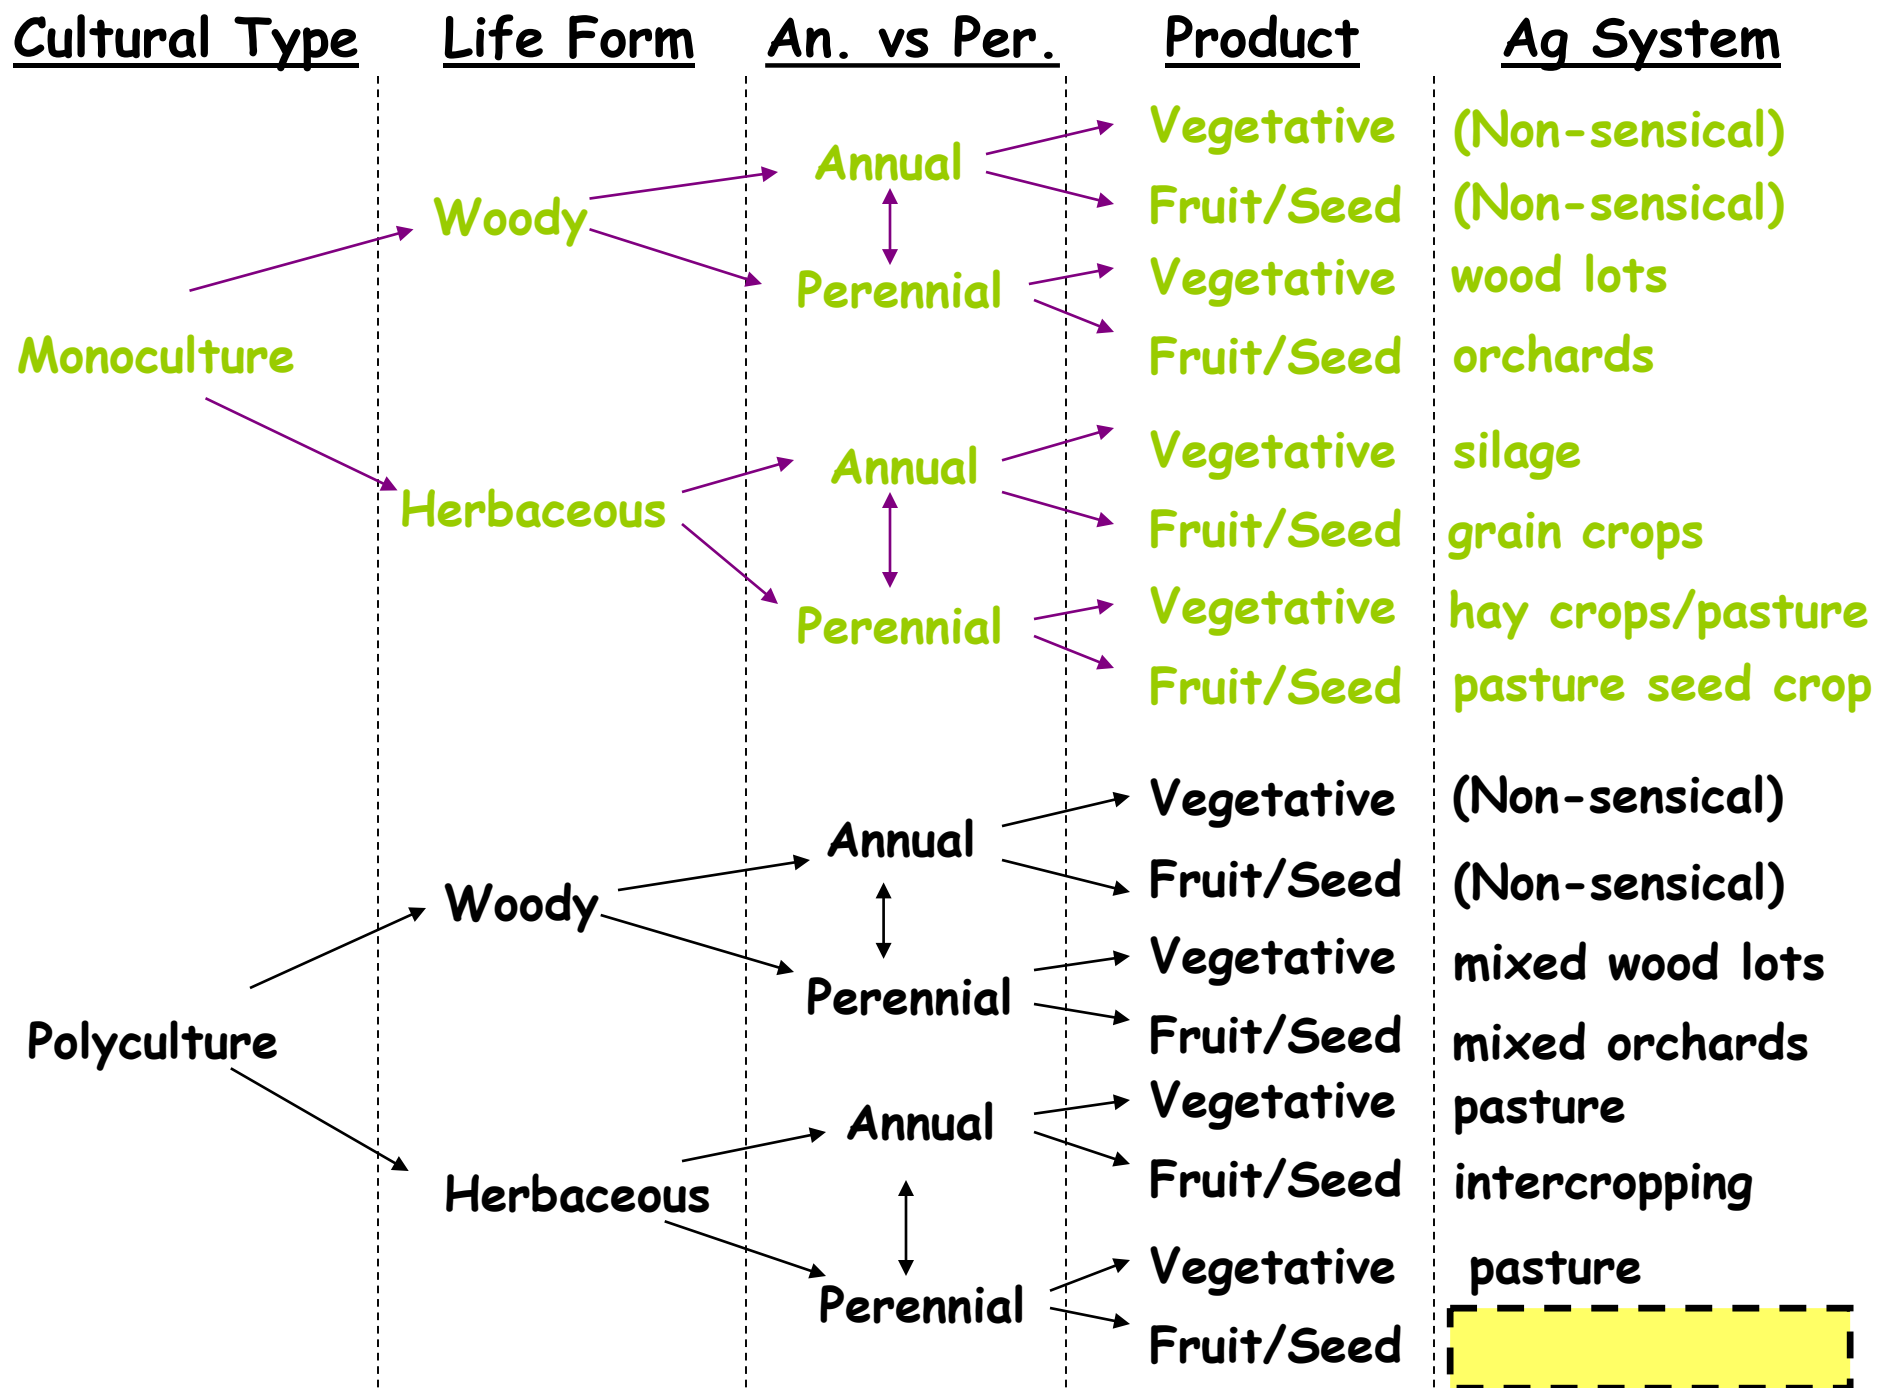

**Dr. Tim Crews**

## Domestication of Old and New World Crops

Crop		Domesticated Years Before Present
Wheat	Old World	10,650 – Turkey
Rice	Old World	10,000 – China
Maize	New World	4,300-4,200
Cacao	New World	3,500

## ***FOR THE CHILDREN***

The rising hills, the slopes,  
of statistics  
lie before us.

The steep climb  
of everything, going up,  
up, as we all  
go down.

In the next century  
or the one beyond that,  
they say,  
are valleys, pastures,  
we can meet there in peace  
if we make it.

To climb these coming crests  
one word to you, to  
you and your children:  
stay together  
learn the flowers  
go light
