

Your GPA and How to Maintain It

We often don't think about our GPA until we need to register for a course or complete.

You will greatly benefit by being aware of your GPA and how it affects you at University.

What is my GPA?

(From the University Calendar) "GPA stands for Grade Point Average. It is a weighted average calculated by multiplying the grade points for a course by the number of semester credit hours assigned to that course, adding those values for a set of courses, and dividing the result by the total number of semester credit hours for those courses. Separate GPA calculations are made for each academic level and term." The following chart explains the numbers and letter equivalents

Grade	GPA	Percent	Definition
A+	4.33	90-100	Exceptional achievement

B+	3.33	76-79	Very good achievement
B	3.00	72-75	Good achievement
B-	2.67	68-71	Good achievement
C+	2.33	64-67	Satisfactory achievement
