Bachelor of Music in Musical Arts Degree
The BMMA is a four-year 122-credit program rooted in Western classical music that also provides opportunities to explore jazz, pop, and world music. Practical courses give this program an experiential dimension rarely found in traditional music programs. The program fosters students’ creativity and versatility, equipping them to adapt to changing market demands and to apply learned theory and practice in a variety of cultural and service sectors.

Diploma—Comprehensive Studies Concentration
The two-year Comprehensive Concentration Diploma is embedded within the BMMA degree. It allows students who do not wish to pursue a degree in music to have an optional exit point after four semesters of study and 68 credits of coursework. This concentration provides a solid foundation in the academic, theoretical, and practical areas of music.

Diploma—Performance Concentration
The two-year Performance Concentration Diploma is also embedded within the BMMA degree. The two-year four semester performance concentration is designed for musically and technically advanced students who plan to enter the field of performance.

Diploma—General Studies Concentration
This 60 credit concentration provides a broad education in music, integrating theoretical, historical, and performance studies while enabling students to master the skills needed for a wide array of professions.

We offer Foundation Courses in Music Theory/Aural Musicianship, History of Music, and Studio Lessons
