

## GROUP FUNDRAISING APPLICATION FORM FOR INTERNATIONAL EXPERIENCES

Program:

Expected program start (mm/yy):

Designated Group Leader:

In order to do group fundraising for an International Experience through KPU, all students participating in the fundraising must submit an application together. By signing this group fundraising form, all students must read and agree to the following:

1. I will familiarize myself with the fundraising guidelines as set out by OISS and the KPU Foundation office and understand that all fundraising must comply with these guidelines.
2. If fundraising begins prior to the application period for the program, I understand that signing up for this group fundraising does not automatically qualify me for the program and that I must still submit an application form and be formally accepted into the program in order to participate in the program.
3. If I do not end up participating in the program, I understand that all monies that I have fundraised will remain within KPU and will be distributed evenly among the participants of the program or of future programs or will be put toward a scholarship/bursary for other international experiences.
4. I understand that the Designated Group Leader listed above is responsible for all communications between OISS and the KPU Foundation office including submitting the funds to the KPU Foundation office and keeping accurate records of money fundraised and how the funds will be distributed as decided upon by the group.
5. As a group, we have decided that funds will be distributed as follows (please check the one that applies):
  - Money fundraised will be distributed equally between all students participating in the international experience.
  - Money will be distributed based on fundraising contributions of each student. **If selecting this option, please attach a detailed description of how fundraising will be tracked and allocated within your group.**
