A NGO networking event for students and recent graduates with breakfast buffet provided. [To learn more click here](#)

MARCH 6-10: ONLINE & ON CAMPUS

WHAT IS SDG CANADA WEEK?

MARCH 6-10: ONLINE & ON CAMPUS

SDG Week Canada is a national collaboration from March 6-10, 2023 featuring workshops, panels, and other interactive programming to increase awareness of and engagement with the 17 Sustainable Development Goals (SDGs) on university and college campuses.

this includes:

- Raising awareness around SDGs through interdisciplinary teaching and learning opportunities
- Institutionalizing the SDGs in campus operations, strategic planning, instruction and research
- Creating a collaborative, cross disciplinary environment for institutions to advance SDGs
- Incorporate guiding values from SDG into conversations to inform solutions

The goal of SDG Week at KPU is to increase awareness, foster hope, and inspire action from individuals and community to advance the SDGs at KPU.

THE GLOBAL GOALS

Throughout the week, we will be celebrating the advancements towards the goals from our KPU community (students, staff, and faculty) and strengthening our partnerships on campus so we can work towards meaningful and sustainable change.
