

# ACADEMIC AND CAREER PREPARATION

**Janek Bajerski**

ACP Literacy Communities

I like the Literacy Communities (LCOM) course at KPU. It has helped me to learn about new things like math, computers, reading and writing. I've been able to meet, communicate and work with new people. I've also made new friends. It has helped me with different life situations in school, life and with my photography and art card business.

**“I’ve been able to meet, communicate and work with new people.”**
