

ACADEMIC AND CAREER PREPARATION

Ruby Wang

English Upgrading (EU)

English (ENGQ) 1099 helped me a lot on my study journey because it has not only given me the opportunity to improve my university studies, but has also given me a chance to transfer to my dream major - learning Product Design at Wilson School of Design. During the year of study of English 1099, I learned a lot of skills that helped me to integrate into my university life more quickly, such as how to use proper citation methods, how to write easily understood and clear papers, and how to format an MLA paper.

“I learned a lot of skills that helped me to integrate into my university life more quickly.”
