

FACULTY OF

ACADEMIC AND CAREER ADVANCEMENT

SURBHI THAKRAR

The Career Choices and Life Success program has been a life saver for me. My kids were attending KPU when I discovered a brochure for the program. My background was in retail management but it was not something I wanted to pursue. I was looking for a new direction in my life. When I began the program, I was relieved to find that everyone had apprehensions. We were all different, but we had much in common. There were many tears, laughter and “Ah-ha” moments during the course but we were always comforted in knowing that we were safe in sharing ourselves and formed a strong bond in a very short period of time. The course offered me a lot of insight about myself. I was hesitant to be “out there” looking for placements but it became easy as time went on. I felt more confident and looked forward to class and connecting with other students. I was offered a job after my second placement as an assistant property manager, which I accepted. Now, I am doing my licensing course as a property manager which will allow me to further my career. Who knew this program would have such a big impact.

“I am very grateful for CCLS. It got me out there meeting people and building my confidence. More women need to know about the magic of this program.”
