

ACADEMIC AND CAREER PREPARATION

Syed Mohammad Fahim Kabir

English Upgrading (EU)

English 1099 helped me a lot. Not only did it open my eyes to possibilities I thought were impossible, but it also gave me a far greater understanding of who I am. It gave me a chance not only to advance my writing skills but also allowed me to help my peers when they needed help. In this class, I felt more confident and pleased with my work ethic. I discovered during English 1099 that you should never give up; even if you fall, you should get back up and keep going; even though it is difficult, it will always be worth it in the end. I'm happy I got to be in this class because my classmates and my teacher were fantastic. She never once gave up on me, which gave me the strength I needed to go through challenging times. To me, it means the world to know that someone is there for you and is not ready to see you give up. That's a feeling I want to ensure keeps going to other students.

“I’m happy I got to be in this class because my classmates and my teacher were fantastic.”
