Who we are

A catalyst, collaborator, connector, and communicator, the Teaching and Learning Commons serves to enhance and advance teaching and learning at KPU. We offer a range of services, support, and resources for our educators including:

Consultations

Individual or group consultations provide complementary expertise to support educators in developing their teaching practice. Consultations are available for course design/redesign and all related components including alignment, assessment, and instructional strategies. Support is also available related to integration of new technologies, educational media and digital learning environments (blended or online).

Consultations can be scheduled at all KPU campuses and are offered in person, online, or by phone. Contact the Teaching & Learning Commons to request a consultation: tlcommons@kpu.ca

Learning Technology and Educational Media

The Learning Technology Team assists educators to utilize educational technology and media as well as supports blended and online course delivery. We offer individual or group, general or discipline specific advising, assistance, and resources to enhance the student learning experience. We support Moodle, Mahara, Kaltura, and a myriad of other educational technologies and are also available to assist you in creating video, audio, or graphic material.

Check our Events Calendar for a schedule of workshops, special events, and more!

Professional Development Opportunities

The Teaching and Learning Commons team offers an array of development opportunities for our educators including workshops, programs, and special events. The team is also available to provide customized offerings to meet your needs. For more information, please contact us: tlcommons@kpu.ca

Funding opportunities are available to faculty and instructors to support their professional development. Learn more by visiting the Scholarship, Funding & Awards section on our website.

Check our Events and Workshop calendar to stay up to date on the offerings from Teaching and Learning Commons.
