 - ii) the sum total of all uses is the total number of stalls required; and
 - iii) if a use is not listed, the number of spaces required shall be calculated on the basis of a use that is most similar to the proposed use.
- b) Vehicular parking stalls shall be provided in accordance with the following standards:
 - i) minimum parking requirements are the sum total of Min Vehicular and Min Visitor Vehicular columns, and Maximum parking requirements are the sum total of Max Vehicular and Max Visitor Vehicular columns; and
 - ii) calculate requirements using the following tables:
 - Table 6.3.1 - Primary Use Residential
