

OPEN TO ALL KPU STUDENTS - FALL 2026
WEDNESDAYS 1:00PM - 4:50PM

FDIT 1100

Web Development Foundations

What is FDIT 1100?

Students will learn the foundational knowledge for web development including the history of the Internet and World Wide Web (WWW), the technologies for the web, and the range of careers in web development. Students will also learn the basics of Hypertext Markup Language (HTML) and Cascading Style Sheets (CSS) which form the structure and visual presentation of web pages.
